

Eurotech 67cm Gas Cooktop

Description

This 68cm Natural Gas Cooktop by Eurotech provides a comfortable cooking area with four gas burners, including a triple-ring wok burner that quickly heats up for exciting sizzling.

Starting a flame is quick and safe with the one-touch electronic ignition. Simply push down the knob and turn, and the flame will ignite automatically. To ensure safety, each burner has a flame failure device that cuts off the gas supply if the flame goes out. Additionally, the cast iron trivets are sturdy and provide stability for your cookware.

The stainless steel surface is easy to clean and has a modern, stylish appearance, making it a durable and practical addition to any kitchen.
